Sir:

PRELIMINARY AMENDMENT

Entry of the amendments presented herein prior to examination of the subject application is respectfully requested.

AMENDMENT TO THE CLAIMS

Claims 1 – 10 (**Cancelled**).

Please add the following new claims:

11. (**New**) A method for the production of a supported olefin polymerization catalyst comprising:

 a) providing an electrolytic solution containing a chiral agent having a chiral center and a metal absorbent material;

 b) forming a solid support having chiral or “prochiral” crystal faces comprising said metal absorbent material and said chiral agent by electrolysis of said
